

ADITYA YADAV

Ghaziabad - 201009, India

+91 9717950423 | adit200515@gmail.com | github.com/Im-diablo | linkedin.com/in/aditya-0x | blazedev.in

OBJECTIVE

CS undergrad with 2+ years building full-stack products, AI/ML systems, and blockchain solutions - Grand Finalist at SIH 2025 and IIT Kanpur. Seeking to ship impactful, production-grade software at a forward-thinking org.

EXPERIENCE

Founder & Developer | Codeflow 2024 to Present

Built and delivered websites, apps, and bot marketing solutions to automate client growth.

Student Trainee | GRIL (NVIDIA Partner) | Global Infoventures 2025 to Present

Selected for an NVIDIA-affiliated training program; working on AI/ML projects and GPU computing with CUDA.

SKILLS

Languages: C, C++, Java, Python, TypeScript, Dart, Solidity

Web & App: HTML5, JavaScript, React.js, Next.js, Node.js, Flutter, Kotlin, Tailwind CSS

AI/ML: OpenCV, Keras, Pandas, NumPy, FastAPI, Hugging Face, Ollama, LLMs, Machine Learning

Database & Cloud: MySQL, PostgreSQL, Firebase, AWS, Vercel, Docker

Tools & OS: Git, GitHub, Hardhat, Ethers.js, Android Studio, VS Code, Linux, LaTeX

Core Concepts: Data Structures, OOP, DBMS, Blockchain/Web3, Cloud Architecture, Cybersecurity

Soft Skills: Leadership, Team Collaboration, Problem Solving, Communication, Adaptability

PROJECTS

Sewa Mitr - A civic issue reporting System. 2025

Crowdsourced platform for citizens to report and track civic issues, with automated department routing.

Tech Stack: React.js, Flutter, PostgreSQL, Firebase, TypeScript, Vercel, Node.js

Local LLM Policy Gap Analyzer 2026

Offline AI tool that analyzes policy documents and identifies compliance gaps using a local LLM.

Tech Stack: Python, PyPDF2, python-docx, Ollama, Gemma3, ReportLab

CfoE, Carbon Footprint Optimizer 2026

Multi-agent ESG audit system with blockchain-anchored audit trails, tokenized carbon credits, and AI-powered reporting.

Tech Stack: Python, FastAPI, Algorand (AlgoKit), Groq LLM, Tavily, Uvicorn

Morphr (AI Resume Tailoring Agent) 2026

Agentic AI that reads a job description, crawls GitHub profile, and auto-rewrites a LaTeX resume to PDF.

Tech Stack: Gemini 2.5 Flash, FastAPI, Python, JavaScript

Indian Constitution QA (Fine-tuned FLAN-T5) 2026

Fine-tuned Google's FLAN-T5 model on Indian Constitution text to build a legal question-answering system.

Tech Stack: Python, Hugging Face Transformers, FLAN-T5, NLP, PyTorch

ACHIEVEMENTS & CERTIFICATIONS

Grand Finalist | Smart India Hackathon 2025 2025

Developed a Crowdsourced Civic Issue Reporting and Resolution System as part of a six-member team.

Grand Finalist | Hack IIT Kanpur 2026 (C3iHub) 2026

Among top 0.4% out of 9,000+ participants; reached the Grand Finale at IIT Kanpur campus in the AI/ML Security domain.

Track Prize Winner | Hacknovate 7, ABES Institute of Technology 2026

Built CfoE (Carbon Footprint Optimizer) bringing verifiable, blockchain-based ESG management using Algorand.

Software Engineering Virtual Experience | JPMorgan Chase & Co. 2026

Configured a Spring Boot (Java 17) backend using Maven for high-volume financial transaction processing.

Information Security: Secure Systems Engineering | NPTEL, Govt. of India 2025

Completed a government-funded certification on secure systems engineering and information security.

EDUCATION

Bachelor of Technology in Computer Science & Engineering Expected: 2027

ABES Institute of Technology, Ghaziabad

Senior Secondary (XII) 2023

G.B. Senior Secondary School, Delhi, CBSE

Matriculation (X) 2021

St. Teresa's Convent School, Ghaziabad, ICSE
